

Distinguished Service Award

David Tyson joined Galloway MRT in 1995 and has, for the last 25 years, worked tirelessly as both a callout member and longstanding member of the committee.

David swiftly volunteered for the role of Deputy Team Leader and became Team Leader three years later. He has always been a committee member, having held virtually every role possible over the years, and he ensures that any task he undertakes is done to improve the way in which Galloway MRT operates, e.g. setting up Google Drive as a team resource. David has recently changed committee roles, taking on the role of Treasurer and Trustee of GMRT. Up until October 2020 he worked tirelessly as Membership Secretary, wading through applications from potential members, carrying out the initial interviews and recommending if they should be accepted into the team - a thankless task but one which has helped future proof GMRT for years to come. He was instrumental in creating a training framework for the team, from designing training requirements needed for new trainees through to a rolling annual training programme for all team members. He regularly volunteers to run training sessions, firmly believing that the more knowledge and skills that he can pass on to our newer members the better. He was involved in the early conversations with representatives from SARCALL and the work he carried out on the project contributed to the rollout of SARCALL throughout the SMR region.

David is a key member of the Galloway team. He always puts the needs of others before himself, giving his time and advice readily.
